

**VOLUNTARY REMEDIATION PROGRAM
DEPARTMENT OF ENVIRONMENTAL MANAGEMENT**

PROJECT SUMMARY

Site Name:	Industrial Composites
Applicant's Name:	Whitley Products, Inc.
Site Location:	4301 Merchant Drive Fort Wayne Allen County
VRP Site Number:	6980805
Project Manager:	Chris Bauer
Date Application Received:	8/22/98
Date Project Completed:	2/5/01
Project Duration:	2 years, 6 months
Contaminant Group(s):	Volatile and Semi-Volatile Organic Compounds
Media Cleaned Up:	Surface and subsurface soils
Cleanup Goals Achieved:	Tier II Nonresidential
Deed/Land Use Restrictions:	Non-residential

Project Description: Whitley Products operated at the site from 1972 to 1992. The site is currently operated by Industrial Composites, Inc. which manufactures paper cones for speaker systems. Potential sources of contamination include a former drum storage area and a release of mineral spirits during routine manufacturing processes. A soil-vapor extraction system was installed to address the historical solvent releases, with overexcavation addressing the mineral spirits spill on the west side of the property. Investigations that have taken place under the auspices of the VRP have been below the Tier II Nonresidential cleanup goals.
